

Manistee River Currents

From The Banks At Chippewa Landing

Newsletter #25

One of our employees, Tony, brought his family from Chicago tubing down the river and they had a blast. In spite all the talking and laughter they managed to see plenty of wildlife. And another employee took an overnight trip recently and the weather was so nice they didn't even bother to set up a tent. The workers really enjoy the river and it shows in the customer service they give.

Congratulations to troop 593 for their 85. (85 river miles of canoeing). They got to see a couple of eagles along the way and a lot of other wildlife including many deer. The does have had their fawns and they seem to like the rivers edge this time of year.

One of our annual groups, the Mohawks, had a great time as you can see by the pictures on this newsletter. Thanks guys for a great bunch of pictures

Don't forget to make camping reservations for the fourth; we still have a little room in both camps.
