

Manistee River Currents

From The Banks At Chippewa Landing

Newsletter #36

From one of the hottest Julys we can remember, to a much normal August our campground has remained full and many of our canoes, kayaks and rafts have been rented each weekend. We would like to thank all of our campers and customers for giving us another great summer. I don't know about you guys but we sure had a lot of fun! But remember, the summer is not over yet because Labor Day weekend is one of the best times to get on the river and we still have campsites available at Chippewa Landing and Oak Grove.

River geocaching has been a big hit this summer. There have been many attempts to find the four of these treasures hidden along the river. The best way to find the geocaches is to download a geocache app on your smart phone; these apps take you to within feet of their hiding place.

One of our favorite seasons for viewing the Manistee River is approaching as we await the spectacular color changes that occur here. If you have not yet drifted the river during the fall color season you are really missing something special. Super bright yellow Maple leaves brighten the whole Chippewa Landing site while oranges enhance the grounds at the Oak Grove site.

Once again we would like to thank all of our campers who came to see us this season. We are really grateful for the groups that return every year to camp with us. A big thank you to the Kelloggs for cooking breakfast and dinner for us over the weekend! The staff really appreciates you.

It's still not too late to come out for one last tubing trip or maybe even take a canoe on an overnight camping trip. As a matter of fact Chippewa Landing is open well into the Fall if you call and make an appointment.
